

IEEE INNOVA 2024 Conference
Track 02: Natural Language Processing
Final List of Accepted Papers

Sr. No.	Paper ID	Title of the paper	Authors Names
1	12	Optimization of HR Recruitment Process using Large Language Model (LLM)	Ananya A ,Sharanya Avadhani M U
2	38	Aspect Based Call Analysis of Marathi Regional Language in India Using Machine Learning Approach	Ankita Amburle
3	93	Sentiment Analysis of Multimodal Content: A Fusion of Visual and Textual Clues	Irtika Khan
4	274	Efficient Feature Extraction Methods for Enhancing Analysis of Lecture Videos	Preet Chandan Kaur Leena Ragha
5	300	Sentiment Analysis Using Transformer Models (BERT, ALBERT, RoBERTa, and DeBERTa) on a SMILE Twitter Dataset	Naman Khurana, vibha prabhu
6	316	Real-time Sign Language Recognition and Communication: Leveraging CNN for Deaf and Mute Communities	Jyoti Kundale, Sumedha Bhagwat Ashwini Raorane
7	328	Exploring the Efficacy of Multi-modal LLM in Endometrial Cancer Diagnosis	Kavita Hanabaratti, Raghavendra Sheddi, Madhura Phadke
8	401	Movie Recommender Using Machine Learning	Roshni Padate
9	499	Intelligent Systems for Students: Enhancing Online Learning Experiences and Improving Outcomes through Personalized Education	Dhananjaya G M, R H Goudar, Govindaraja K, Vijayalaxmi N. Rathod, Minal Patil, Minal Patil
10	711	Machine Learning Techniques for Twitter Data using Sentimental Analysis	Kanchan Wangi , Anupama Inamdar
